Great talent: engineering capabilities

Software engineering and system development

- DevSecOps
- Wide range of software technology: C/C++, Java, Linux/Unix, Oracle
- Cloud technologies (AWS)
- Large COTS/FOSS integration
- Software build and release
- Cybersecurity engineering
- Software as a Service
- Home to the Raytheon CODE Center

Systems engineering

- Satellite ground systems integration and test
- Multi-INT data fusion collection and processing
- Constellation-based command and control
- Problem-centric analytics and activity-based intelligence
- Position, navigation and timing solutions
- Large-scale environmental intelligence solutions

Hardware and infrastructure engineering

- Innovative infrastructure solutions
- Flexible frameworks built for the future
- Automated development of environments
- Cloud-based test environments
- Infrastructure as a Service (IaaS)

Working in Dulles, Virginia

1,659
employees

4

modern facilities with
